

State Compensation Insurance Fund Associate Purchase Program

April 2010

We would like to celebrate our relationship with State Compensation Insurance Fund and its Associates by providing the following price agreement for April 2010. We are confident that our pricing will be viewed by your Associates as a very aggressive, no-nonsense purchase program designed to save them both time and money. While we understand that there are certain dealers that claim to beat any price presented, it inevitably comes with a cost of both time and aggravation. Our approach is simple. Provide bottom line prices without the hassle. We also pledge that your Associates will feel the full appreciation that we hold for your fleet business as well as for their friends and family.
